PROFESSIONAL SUMMARY

Backend Software Development Engineer with 5.5 years designing and shipping Java and Spring Boot services across the airline and healthcare domains — environments where correctness and reliability are non-negotiable. Strong across RESTful API design, microservices, and relational data modelling, with a working discipline built on automated testing, controlled releases, and production observability. AWS Certified Cloud Practitioner who has helped lead legacy SOAP-to-REST cloud migration.

TECHNICAL SKILLS

Languages & Frameworks: Core Java, Spring, Spring Boot, REST APIs, Microservices

Data & Persistence: MySQL, Oracle, SQL Server, Hibernate, JPA

Cloud & DevOps: AWS, RedHat OpenShift, Git, Maven

Testing & Quality: JUnit, Load Testing, Refactoring, Code Standards

Observability & Ops: Sumo Logic, Production Monitoring, RFC Releases, Incident Triage

Ways of Working: Agile / Scrum, Cross-team SPOC, Process Improvement, Release Ownership

PROFESSIONAL EXPERIENCE

Associate Sep 2025 – Present

Cognizant Technology Solutions · Kochi, India

- Engineer enterprise Java and Spring Boot backend services as part of an established delivery team.
- Introduce production-release and observability discipline — controlled releases, monitoring, and issue triage — to a new codebase.

System Engineer Mar 2023 – Aug 2025

Tata Consultancy Services · Chennai, India

- Delivered features and defect fixes across microservices with full JUnit test coverage.
- Led the migration of legacy SOAP integrations to AWS REST services, modernising the integration layer.
- Owned RFC releases, load testing, and post-deployment production monitoring end to end.
- Served as Process Improvement SPOC, driving cost and efficiency initiatives across the team.

Software Development Engineer Feb 2021 – Feb 2023

Claritrics India Pvt. Ltd. · Chennai, India

- Built and refined RESTful backend services in Java and Spring Boot.
- Debugged, optimised, and refactored code to improve performance and reliability.

Software Engineering Intern Nov 2020 – Feb 2021

Claritrics India Pvt. Ltd. · Chennai, India

- Onboarded into backend development, building a foundation in Java, Spring, and relational databases.

KEY PROJECTS

Delta Airlines — Flight-Order Engine Java · Spring Boot · REST · Hibernate · Microservices

Engineered PNR generation and order-lifecycle management for airline ticketing, turning complex booking rules into dependable, well-tested backend services.

Change Healthcare — Medical Coding Automation Java · Spring Boot · Microservices · REST · MySQL

Built an automated CPT / ICD / PQRS code-generation pipeline for radiology and pathology, where output correctness is critical to compliance.

Excellus BCBS / CDPHP — Member Portal Java · Spring Boot · REST · Hibernate · Microservices

Developed Spring Boot microservices and REST APIs for secure member registration, authentication, and account management, with Hibernate-backed persistence and unit-test coverage.

SOAP → AWS REST Modernisation Java · AWS · REST · Microservices

Led migration of legacy SOAP / SOA integrations to cloud-native REST services on AWS, reducing legacy coupling and improving maintainability.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services (Foundational).

EDUCATION

B.Tech, Information Technology 2016 – 2020

Kalasalingam Academy of Research & Education · Virudhunagar, India
